EXECUTIVE SUMMARY

RR Dental Hospital has durable real-world strengths, but the website behind that reputation is quietly working against it. Google's PageSpeed Insights tool scores the site 34/100 for mobile performance, with main content taking 5.4s to appear. The homepage alone transfers roughly ~11 MB of data—about 10x heavier than recommended.

Top Business Risks:

- Mobile visitors likely abandoning before loading finishes
- Broken click-to-call link, losing phone leads
- Accessibility gaps (missing alt text, low text contrast)

Top Growth Opportunities:

- Image compression & script cleanup to bring mobile score from 34 into 80s+
- Fixing alt text and contrast improves accessibility, SEO, and AI answer engine reading
- Leverage existing brand reputation with technical website repair

DIGITAL SCORECARD

Scored using Google's Lighthouse / PageSpeed Insights tool plus direct site inspection.

Metric	Mobile	Desktop	Signal
Performance (Google Lighthouse)	34/100	52/100	■ RED
Accessibility (Google Lighthouse)	62/100	62/100	■ AMBER
Best Practices (Google Lighthouse)	88/100	92/100	■ GREEN
SEO (Google Lighthouse)	91/100	91/100	■ GREEN
Agentic Browsing Readiness (AI / LLM)	0/2	0/2	■ RED
Lead Generation (Click-to-Call, Forms)	Issues	Issues	■ RED
Brand Trust (Reviews & Testimonials)	Strong	Strong	■ AMBER

Core Web Vitals (mobile): First Contentful Paint 3.5s | Largest Contentful Paint 5.4s | Total Blocking Time 650ms | Cumulative Layout Shift 0.342

TOP HIGH-IMPACT FINDINGS

[HIGH] Mobile Performance Score: 34/100

Finding: Google Lighthouse rates mobile performance 34/100 in the 'poor' range. Main content visible (LCP) takes 5.4s vs recommended under 2.5s.

Business Impact: Most mobile visitors leave before the page finishes loading.

[HIGH] Homepage Transfer Weight ~11 MB

Finding: Total transfer size exceeds 10 MB. Unoptimized images alone account for 2.7 MB of avoidable weight.

Business Impact: Directly responsible for slow loading on mobile connections.

[HIGH] Click-To-Call Phone Link Mismatch

Finding: Homepage displays one appointment number but the tappable tel link dials a different number.

Business Impact: Silent loss of direct patient/customer phone leads.

[MEDIUM] Accessibility Score 62/100

Finding: Missing image alt text sitewide, buttons without accessible names, and low contrast ratios.

Business Impact: Affects users with screen readers and reduces SEO score.

QUICK WINS

Improvement	Expected Benefit	Effort	Priority
Fix click-to-call mismatch	Recover lost phone leads immediately	< 1 hour	High
Rewrite title & meta descriptions	Improves branded & local search CTR	1 hour	Medium
Compress & resize homepage images	Cuts 2.7 MB page weight & boosts speed	Half day	High
Add alt text & contrast fixes	Improves accessibility & AI search visibility	1 day	Medium

IMPROVEMENT ROADMAP

Phase 1 — Critical Fixes	Phase 2 — Growth Improvements	Phase 3 — Ongoing Optimization
- Click-to-call link repair - Title & meta tag rewrite - Image compression pass - Core Web Vitals acceleration	- Sitewide alt text & contrast - Unused JS cleanup - JSON-LD Schema markup - AI Search (AEO/GEO) FAQ content	- Content refresh cycle - Local SEO map pack optimization - Deeper service page content - Ongoing speed monitoring

MEETING INVITATION & VERIFIED AUDIT PROOFS

This report covers highest-impact findings sourced directly from Google's PageSpeed Insights / Lighthouse tool. A short 10-15 minute consultation call will walk through the exact technical fix plan and timeline.
